PROFILE SUMMARY

Experienced UI/UX and frontend developer with 1 year of hands-on experience. Skilled in creating pixel-perfect designs and seamless user experiences. Quick learner with a strong willingness to master new technologies. Proven ability to adapt and excel in dynamic environments.

WORK EXPERIENCE

Software Engineer

Recodem

- Proficient in developing static HTML pages with precise pixel-perfect designs, ensuring seamless rendering across desktop, mobile, and tablet devices. Skilled in creating unbreaking sections to maintain visual integrity across different screen sizes.
- Experienced in creating wireframes using industry-standard tools like Figma and Lucidchart to visualize and plan user interfaces and experiences.
- Familiar with version control systems such as Git and code repository platforms like Bitbucket for managing and pushing code. Proficient in utilizing project management tools like Jira for task tracking and collaboration.
- Conducted thorough code testing using green path testing methodology post-development to ensure code quality and functionality.
- Communicated effectively with backend developers to integrate frontend components with API endpoints and database systems.
- Utilized JavaScript frameworks such as React.js to develop interactive and dynamic user interfaces.
